- Redshift
- Rekog

Miami University of Ohio
Senior Developer
March 2020 - Present

Supported development of various applications used by students and faculty

Segmentation Tool `PHP` - `Oracle` - `Laravel`
Active Directory Clean Up `Perl` - `Active Directory`
Scholarship Letter Tool `PHP` - `Oracle` - `Laravel`

Homee on Demand
Senior Developer
July 2019 - February 2020

At Homee I added features to and maintained two APIs used by the two separate apps. I was also responsible for the development of their data warehousing solution.

PHP based API `PHP` - `MySQL`
Node based API `Node` - `Javascript` - `MySQL`
Workshop `React` - `Javascript`
BI Data Warehousing `AWS` - `RedShift`

Bluestone Creative
Chief Technology Officer
Apr 2015 - Feb 2019

At Bluestone I was responsible for implementing all software engineering needs of our clients. This included researching technology solutions, creating software and unit tests, managing web servers, installing SSL certificates, database management and interfacing with client.

8451° `PHP` - `Javascript` - `MySQL`
North 680 `Javascript` - `WebGL`
BB Riverboats `PHP` - `Javascript` - `MySQL`
Gwynne Sound `PHP` - `Javascript`
Bar & Vine `PHP` - `Javascript` - `MySQL` - `Rest`

Triton Digital
Software Engineer
Sept 2010 - Apr 2015

I was part of a team tasked with building a REST API for various integrations of social media components. I was also utilized in an Agile driven team building two separate CMS projects and deploying releases to AWS.

Triton Single Sign On `PHP` - `Javascript` - `Rest`
Amp CMS `PHP` - `Javascript` - `MySQL`
Flex CMS `PHP` - `Laravel` - `AWS` - `Javascript` - `MySQL`

Game Investors
Senior Developer
Aug 2008 - Sept 2010

Video uploader with real time encoder `C#` - `MSQL`
Image uploader and cropping tool `C#` - `MSQL`
Drag and Drop profile page `C#` - `MSQL`

Sanger & Eby
Senior Developer
Dec 2006 - Sept 2008

While employed I was a developer in the many web applications. This is my first product management role where I worked directly with clients, oversaw budget allocation and ensured deadlines were met.

Bloomingdales CRM `ASP` - `Javascript` - `MSQL`
St. Elizabeth `ASP` - `Javascript`
Macy's Satellite Network `ASP` - `Javascript` - `MSQL`
Macy's College Recruitment `ASP` - `Javascript`

University of Kentucky
ASP Developer
Aug 2002 - Aug 2004

This was a very data oriented role. I worked hand in hand with database administrators to build several analysis tools. I learned basics such as using separate development environments, dealing with dummy data and being HIPPA compliant

Artemetrx `ASP` - `MSQL`
UK Health Benefit Initiative `Visual Basic` - `MSQL`
Nucleosite - `ASP` - `MSQL`

IEntry
PHP Developer
Feb 2000 – Aug 2002

My first job in the tech industry. While hired as a mere HTML editor, I wasted no time demonstrating my coding ambitions by creating a handful of automation tools that were used across the company.
